

If these rule changes pass you will be a further disgrace to this country and its democratic values that you are supposed to represent. For too long you have been in bed with the industry you are supposed to regulate to the detriment of the people of this country. You have sold your values and your souls for free trips to Vegas. You have sold out the American people and I hope that you all have an empty feeling inside due to the harm that you have already done. I just hope that you stop this nonsense and do your jobs.
